

ANESTHESIA
REMEDiation
REENTRY
PROGRAM

REENTER ANESTHESIOLOGY WITH STRUCTURE AND SUPPORT.

ARRP provides individualized remediation and reentry pathways for qualified anesthesiologists seeking to return to, transition into or advance within hospital-based clinical practice.

WHO CAN BENEFIT FROM ARRP?

COHORT I

Anesthesiologists who have worked in a limited-scope setting, such as endoscopy, cataract or pain management centers

COHORT II

Anesthesiologists who have been away from medicine or anesthesia for a significant period

COHORT III

Anesthesiologists with more complex or mandated supervisory needs

COHORT IV

Anesthesiologists who have faced challenges fulfilling or maintaining board-certification requirements

HOW ARRP WORKS

Through individualized assessments, structured education and supervised clinical experience, ARRP develops programs tailored to each anesthesiologist's background, experience and professional needs.

Enrollees participate in **problem-based learning discussions**, **didactic lectures** and **hands-on patient care** throughout this program.
